The therapeutic massage for home

SYNCA combines a unique wellness experience with advanced design. The **innovative massage products** allow you to experience pure relaxation and well-being - in the comfort of your home. Synca is inspired by the Japanese word (pronounced "Shinka"). It means evolution, but in another spelling it also means valuable. Both perfectly describe the philosophy behind Synca. They develop luxurious wellness products and invest energy, know-how and heart and soul to constantly improve them and achieve their goal: **Your ultimate physical and mental relaxation.** Because they know how valuable your time is. Synca combines the Far Eastern tradition of massage with innovative, precise technology "Made in Japan" and modern design. You can enjoy the big and small moments of relaxation at any time in your home thanks to Synca's premium products.

The professional massage for a complete relaxation

The Synca CirC massage chair massages gradually from the buttocks to the thighs, starting with a gentle **tapping massage**. The next step is a deeper **kneading** massage to counteract tension and blockages in the pelvic area. The lateral air cushions in the pelvic area provide additional muscle relaxation with their gentle compression. L-Shape massage The L-Shape massage provides pure relaxation - exactly where you want it. Here, the "massage hands" stroke along an 86cm-long guide rail from the lower neck, over the back and into the buttocks and thigh area. With the CirC massage chair, you can **conveniently** choose **between full body, back, hip or buttock massage at the touch of a button**. There is also the option to focus on a specific area or point of your body. Customize the massage to your needs.

Just the right thing to do after a busy day

Relaxation with pleasant ambient light

Relax as if by candlelight. The soft, warm lighting on both sides of the CirC makes your massage moment perfect and simply lets you relax even better after a busy day.

Loosening tense and stiff muscles

The muscles in the lower back and pelvic area represent an important supporting apparatus. This is particularly closely linked to the leg and vertebral muscles. Tense or stiff muscles in the pelvic region can cause pain and dysfunction in the lumbar region, lower back as well as the hips. The CirC massage chair loosens your tense and stiff muscles.

Your spa experience with heat therapy at home

The regenerating heat penetrates the whole body from the waist to the back and enhances the effect of the massage. Experience soothing comfort like in a real spa.
