

## Micro Mobility Systems Downtown (SA0171)

The new Micro Downtown is the ideal scooter for everyday use. It can be folded in just one second with the foot and can therefore be combined with public transport or the car.

**CHF 259.00**

The scooter looks compact and is extremely light at six kilograms. In addition, the Downtown is very robust and allows a pleasant ride over any surface with its large wheels and wide deck. The wide handlebar and handbrake increase comfort and safety while riding. So if you need a practical, comfortable scooter for the way to work or to the university, the Downtown is just right.
