- meets the high requirements of EN 957 SA and is therefore also suitable for therapeutic use
- recommended retail price CHF 4'799.--

Use: home use to light institutional use, payload: approx. 182kg

Device dimensions: L186 x W75 x H164cm, weight 140kg

Accessories: integrated receiver for chest strap transmitter, hand pulse sensors, bottle and reading holder

Option: transmitter strap

Warranty: **CH service** - home use: 2-year full warranty, light institutional use: 1-year full warranty

Brake system: Generator system

Flywheel: 11 kg

Current-dependent: No

Stride length: 53 cm

Gradient: No

Resistance levels: 25

Training computer: LED display

Displayed values: Watts, time, distance, calories burned, program, resistance (level), program profile, cadence, speed, target heart rate, heart rate, % of maximum heart rate, mets

Training programs: 12

Pulse-controlled programs: 2

User-defined programs: keine

Hand pulse sensors: Yes

Pulse receiver: 5kHz and Bluetooth

Multimedia: Water bottle holder, tablet holder

Foldable: No

Accessories: integrated receiver for chest strap transmitter

Options: Transmitter belt, floor protection mat

Folding dimensions (length / width / height): No

Dimensions (length / width / height): L 186 x W 75 x H 164 cm

Device weight: 140 kg

Payload: approx. 182 kg

Insert: Home to light institutional use

Warranty: CH service - home and light institutional use: 2 years full warranty, 3 years spare parts, 30 years frame and magnetic brake, commercial use: 1 year full warranty

Features: Frame made of heavy steel, high quality powder coating, meets the high requirements of EN 957 SA and is therefore also suitable for therapeutic use, foam-coated handles
