

Tunturi Double End Ball Pro (14TUSBO052)

Tunturi Double End Ball Pro for improving reaction, precision, strength and endurance. The double-ended ball is made of black, high-quality synthetic leather. The design has a traditional 8-piece shape.

CHF 56.90

The scope of delivery also includes the fastening ropes. This allows the ball to be fixed and suspended at both ends. The ropes are elastic and allow the ball sufficient freedom of movement forwards and backwards when hit. This effect of elastic movement is used to improve reaction, coordination and accuracy. The Tunturi boxing ball is filled with air. This has the advantage that the hardness can be individually adjusted. The diameter is 24 cm.

- high-quality artificial leather
- elastic fastening ropes included in the scope of delivery
- diameter 24 cm
