

Tunturi Cardio Fit D10 elliptical trainer (18TCFD1000)

The Tunturi Cardio Fit D10 is a mini elliptical trainer that is used under the table and can therefore be easily integrated into everyday life. This allows you to train your endurance at the same time. The exercise bike is designed in such a way that the knees remain in a low position, allowing you to exercise safely and comfortably.

CHF 249.00

The resistance is individually adjustable and the display shows the training information. With the D10 Cardio Fit Under Desk Bike, exercise can now be actively promoted even during sedentary activities and cardio endurance can be improved.

- Gentle training for arms and legs
- Supports muscle maintenance
