

Schwinn 4iiii crank arm power meter

In collaboration with the world's best cyclists, 4iiii has developed a power meter that sets new standards. Using a patented 3D strain gauge measurement, the 4iiii crank delivers the most accurate, reliable and consistent values. 4iiii cranks help their users to reach their full potential and improve their performance. This technology from professional cycling is now also available as an option for all AC Schwinn Cycling bikes.

CHF 699.00

The new power meter from 4iiii delivers unparalleled measurement accuracy. Reliable data transmission via Bluetooth Smart and ANT+ to leaderboards, personal fitness tracking apps, sports watches and consoles. In addition, more than 2,000 hours of battery life via two standard AA batteries.
