

Schwinn AC™ Sport Carbon Blue Belt Indoor Cycle

Schwinn® set standards with the first dedicated indoor bike. With the AC™ Sport, these standards are redefined. The adjustable handlebar and saddle provide even more riding comfort. The experiences of hundreds of users, instructors and studio operators have gone into the development of this innovative bike. The result: a unique device that is extremely popular with athletes.

CHF 1'990.00

The Indoor Cycle from Schwinn with Carbon Blue - Technology. The belt drive system combines unmatched durability with the authentic outdoor biking feel you expect from Schwinn Bikes.

Features:

- Rigid drive
- Carbon Blue belt drive - the durable, serrated Carbon Blue™ drive belt provides a cycling experience just like on the road
- Fully galvanized steel frame
- Virtual Contact resistance technology - the innovative system uses magnets and an aluminum disc to create resistance
- Maintenance-free, thanks to a 6-magnet brake system
- Schwinn Performance handlebars with ErgoLoop for additional hand positions
- Ergonomic Performance Plus™ handlebar grips that reduce pressure on the hands in the training position - 12degree tilt of the handlebars toward the user - for comfortable support
- height-adjustable handlebars
- stepless horizontal adjustment of the handlebars
- stepless horizontal seat adjustment
- vertically adjustable racing saddle
- Morse Taper Double Link pedal (SPD clip / with basket and strap)
- dual density saddle for an ideal combination of comfort and stability
- stainless steel locking bolts
- extra-large double bottle cage integrated on the handlebars
- Optional: Echelon2 console that provides immediate feedback to help users achieve their training goals

- Optional: 4iiii® crank arm power meter that provides accurate training information to help the user train harder and more efficiently
