

Sponser Isotonic 1000g can

Isotonic thirst quencher from Sponser with minerals and carbohydrates.

CHF 25.00

Powder for the production of an isotonic electrolyte drink - Sponser Isotonic is an energy drink that is very well tolerated and has a delicious flavor. Made from first-class raw materials, enriched with all the necessary minerals and vitamins, Sponser Isotonic is the fastest way to get fluids, mineral salts and vitamins into the body. Can be drunk before, during and after exercise.

Sugar spectrum

- Polysaccharides and fructose 81%
- Mono- and disaccharides 19%

The short-, medium- and long-chain carbohydrates cause a staggered release of fuel to the muscles and thus a balanced and steady supply of energy.

Ingredients

- Maltodextrin, fructose, fruit powder, dextrose, mineral salts, acidifier (citric acid), lactose, nature-identical flavors, vitamins, antioxidant (ascorbic acid)

Packaging: 1000g tin Flavor: fruit mix, peach, citrus, blood orange, ice tea
