

Tunturi cork massage roller (14TUSYO061)

The Tunturi cork massage roller is the environmentally friendly roller for self-massage and yoga training.

CHF 32.90

Massages support regeneration and shorten the recovery time after training. Different parts of the body are rolled over the massage roller. Tension in the fascia and adhesions in the connective tissue are released. The fascia roll also supports muscle flexibility, mobility and balance.

The Eco Fascia Roll can be used by the therapist to massage the athlete or by the athlete themselves as a self-massage tool. Full body treatments or a selective trigger point massage on knotted muscles are possible.

- Roller made from 100% environmentally friendly cork
- no aggressive chemicals are used in the production process
- odorless
- mold resistant
- without toxic ingredients
- Fully recyclable and biodegradable
- Dimensions: 30 x 10cm
