Medical purpose:

The AIREX® products are intended to be used as a therapeutic aids for both institutional and home use. as well as for home use. Object lying on the floor object serves as a support for a person during medically prescribed exercises to improve motor skills and balance or posture. balance and postural control and/or for movement therapy therapeutic treatment of muscle weakness of the limbs and trunk as a result of neurological and trunk as a result of a neurological or orthopedic condition. disease.

Why are the sizes given only in "approximate"? All AIREX mats are foamed freely. This means they are not produced in molds. The production process is comparable to baking a loaf of bread. Therefore, the result can be influenced depending on the environmental conditions (temperature, air pressure, etc.), so the products always vary slightly in length, width and thickness.
