

Body Solid Floor Mats 100x100x2cm (RFL2-PRO)

FL-2-PRO floor mat is a modular technical surface designed for areas dedicated to strength sports and areas with free weights and cross training. The FL-2-PRO floor mat reduces noise and vibration caused by the falling of weights, dampens rebound and thus increases the safety of users of the training area. The surface provides a protective layer that preserves the integrity of both the underlying surface and the equipment, extending its life. Bodytrading FL-2-PRO is the surface with the best performance in its category and is realized entirely with environmentally friendly processes and materials.

CHF 89.00

Materials

FL-2-PRO floor mats are made of rubber granules bonded with a highly resistant polyurethane adhesive.

Appearance

The surface is slightly porous thanks to the use of fine rubber granules, which allows to obtain a linear visual effect while maintaining the high grip of the product.

Features

Easy to transport, install and clean. Wear resistant and maintenance free. Due to its modular structure, the surface is not subject to deformation due to seasonal temperature changes.

Installation

Installation is recommended on a flat surface.

Cleaning and maintenance

The product does not require any special maintenance. It is possible to wash the surface with normal floor cleaners or disinfectants. In case of contact with oil or other liquid substances, remove and clean

immediately. Oily substances can be removed by cleaning with soap and warm water. Common cleaning methods include using a broom or vacuum cleaner to remove dust and dirt and using a damp cloth or mop for surface cleaning.

Size and weight

One mat measures approximately 100cm x 100cm (thickness approximately 2cm). Weight 20kg
