LOW CARB PROTEIN SHAKE by SPONSER® has a high biological value thanks to the high-quality milk and egg protein. The protein sources saturate sustainably and support the maintenance and build-up of muscle mass. This is especially crucial in phases of reduced calorie intake to counteract an increased loss of muscle mass. The functional ingredients L-carnitine and choline support fat metabolism. One serving contains 300 mg L-Carnitine from 100% pure CarniPure® as well as 2.5 g soluble dietary fibers, which provide additional satiety. Supplemented with vitamins and minerals. Functional ingredients (L-carnitine, choline, dietary fiber).
