

PowerBlock Adjustable Kettlebell 8/10/12/16kg (PBKB)

The PowerBlock adjustable kettlebell is a selectorized cast iron kettlebell that offers 4 different weight increments from 8kg to 16kg in one unit. PowerBlock adjustable kettlebells replace 4 individual kettlebells or 46kg dumbbells while taking up the space of only one kettlebell.

CHF 229.00

If you're considering buying multiple kettlebells for a home kettlebell workout for strength and conditioning, consider the efficient and space-saving design of the PowerBlock kettlebell.

This high-quality kettlebell block features a thick solid cast iron handle and a welded shell design for durability. Unlike other selectorized kettlebells that are bulkier or have an unusual shape that throws off the execution of the kettlebells, the PowerBlock adjustable kettlebell features a curved outer shell and a compact, ergonomic design for comfortable movement during workouts.

- the most ergonomically designed adjustable kettlebell ever
- replaces 4 kettlebells in one
- adjustable weight levels: 8kg, 10kg, 12kg and 16kg
