

## Vision Fitness U600E Ergometer

The Vision Fitness U600E Upright Bike offers the classic design that cyclists need for a pulse-pounding ride, as well as extensive entertainment options. The multi-position handlebars make it easy to change riding positions, and the comfortably contoured seat easily adjusts to provide an ideal fit for users of all sizes. The large touchscreen console enhances the experience with popular apps, selected training programs and streaming entertainment.

### **RELIABILITY**

Vision Fitness equipment is designed for demanding use in busy areas such as clubs, companies or hotels as well as for special requirements for private use. Strict quality standards and thorough testing procedures ensure that Vision Fitness products will provide years of trouble-free service.

### **INNOVATION**

Vision Fitness draws on a broad network of engineers, designers, professional trainers and fitness enthusiasts when developing its equipment. This know-how and feedback is used to produce stylish, durable and user-friendly products. Equipment from Vision Fitness is therefore particularly flexible, robust and intuitive to use.

### **QUALITY**

In the company's own factories, the manufacturing process is controlled from the raw materials to the finished product. All Vision Fitness training equipment is manufactured according to strict quality standards in certified production facilities (ISO 9001).

### **USE**

**HOTELS** - Offer your guests a daily training session, even when they are on the move. Vision fitness equipment is just right for this, as it is easy to use, durable and particularly aesthetic.

**EXCLUSIVE LIVING** - Make attractive living even more valuable with a selected range of fitness equipment. With the highest quality and attractive design, Vision Fitness is the perfect training partner every day.

**COMPANY** - Behind a successful company are motivated and efficient employees. Increase the attractiveness of your company and the health of your team with the attractive Vision Fitness equipment.

**PUBLIC INSTITUTIONS** - Vision Fitness keeps your employees fit at all times. Give your team equipment that is fun - whether for quick workouts in between or long endurance sessions.

### **THE ENTERTAINMENT SERIES CONSOLE**

This makes training an absolute highlight - with particularly exciting and entertaining workouts. The new Entertainment Series consoles offer a wide range of popular apps, exclusive HD footage and HIIT programs. Users can even connect their mobile devices and stream their current favorite series while working out.

**ENTERTAINMENT APPS** - popular apps have been integrated into a tablet-style interface, allowing access to private accounts at any time to enjoy favorite music, movies, series and books while the workout flies by. The Wi-Fi-enabled consoles offer users an easy way to connect to their favorite apps. (The availability of apps may vary at any time)

**VIRTUALACTIVE** - The Virtual Active program accompanies training enthusiasts to exotic locations with high-resolution film footage. Depending on the training speed, the pace of the film is accelerated or slowed down. And depending on the terrain profile, the resistance or incline of the device varies.

**SPRINT 8** - Effectively burn fat and build muscle in short, 20-minute workouts with our high-intensity interval training Sprint 8. Great for the schedule: three sessions per week are sufficient.

**CONNECT & STREAM** - With the integrated HDMI connection, users can connect their own Android and iOS devices and play back their screen. This gives them the opportunity to watch their favorite fitness or entertainment apps on a large screen and work out at the same time. There is also the option to play music and video files on the console with My Media by simply connecting your device to the USB port. My Media is compatible with most Android smartphones, tablets and MP3 players.

(Mobile devices and HDMI cables are not included. The term HDMI, HDMI High Definition Multimedia Interface and the HDMI logo are trademarks or registered trademarks of HDMI Licensing Administrator, Inc.).

### **Features:**

- Braking system: 2-stage generator system
- Power supply Power supply unit, 12V DC, 5A
