

Assault Fitness AirRower Elite

The AirRower Elite from Assault Fitness was designed by professional athletes and trainers who have tested the best fitness equipment in the world. The goal was to create a powerful rower that stands out from the crowd. The AirRower's solid steel frame construction and innovative design combined with its load capacity make it one of the best rowing machines on the market.

CHF 1'490.00

Every component of the AirRower from Assault Fitness is designed specifically for commercial gym use and built to last. The powerful two-stage chain and belt drive, commercial seat, steel footplates and aluminum beam set the Rower apart from the rest of the competition. The AirRower offers maximum durability and a smooth, low-maintenance rowing experience.

- durable design
- high quality construction
- solid steel frame

Perfect for HIIT, cardio and endurance training, the Assault AirRower provides an unmatched total body workout. Training with the AssaultRower is completely scalable: from the average athlete to the elite athlete, every body will be challenged and strengthened. The multi-grip handle system, sweat-proof seat and adjustable footplates provide a comfortable workout for rowers of all fitness levels.

- On-board training programs
- Bluetooth and ANT connectivity
- Connects to the Assault Fitness app (coming in 2021)
- Heart rate monitor function

Transport wheels make it easy to move the Assault AirRower and choose your workout spot. Assault Fitness' AirRower is powered by human strength and has virtually no carbon footprint or energy consumption. The 4-way leveling / stabilizing system keeps the Assault AirRower stable and ready to handle the load of daily use.

Features:

- Chain hoist with air resistance system
- mains-independent operation
- Digital training computer
- HIIT programs
- Heart rate programs
- Bluetooth and ANT connectivity
- integrated heart rate receiver
- with integrated windscreen
- solid, powder-coated steel frame
- corrosion-resistant fittings
- front transport wheels
- color: black

Use: home to commercial continuous use, payload: about 158.8kg

Equipment dimensions: L235 x W51 x H123.4cm, weight 92kg

Options: Polar H10 Bluetooth Smart Transmitter Set black

Warranty: 2 years on labor and parts (excludes consumables).

Brake system: Air resistance system

Current-dependent: No

Resistance levels: Drag-dependent

Training computer: Digital

Displayed values: Time, distance, speed, calories, pulse

Training programs: 8

Pulse-controlled programs: 1

Pulse receiver: Bluetooth

Multimedia: Bluetooth interface, entertainment APP's

Rail system: Monorail

Accessories: integrated receiver for chest strap transmitter

Options: Bluetooth transmitter belt, floor protection mat

Foldable / erectable: Erectable

Folding / set up dimension: L 123.4 x W 51 x H 235 cm

Dimensions (length / width / height): L 235 x W 51 x H 123.4 cm

Device weight: 92 kg

Payload: 158,8 kg

Insert: Heinbereich bis kommerzieller Dauereinsatz

Warranty: 2 years on labor and spare parts

Features: Solid and powder-coated steel frame, chain hoist, corrosion-resistant fittings, transport rollers
