

Tunturi E60R Recumbent

The Tunturi Performance line offers a very high price/performance ratio for the home user. Each Tunturi Performance ergometer has a user-friendly console, which also includes a watt program. The Tunturi E60R has an EMS (induction brake) resistance system, which is wear-free and stronger. The Tunturi Performance recumbent bike E60R has 20 different programs and 32 resistance levels. The control panel of this recumbent bike has an integrated LCD display and simple menu navigation by means of a rotary knob. This makes this exercise bike very easy and intuitive to use.
