

Tunturi Aerobic Power Step Board (14TUSCL390)

The Tunturi Aerobic Power Step comes with a new design. Not only the anti-slip surface is impressive, but also the 3-level height adjustment system. The Power Step from Tunturi is ideal for training with your own body weight and defines not only the calves, but also the thighs and buttocks through regular training.

CHF 119.00

The stepper is not only used for body pumps, but can also be used for aerobics, cross fit or sports medicine exercises. Advanced athletes can also use various training accessories such as weight vests, weight cuffs or weight plates for training.
