

Matrix Fitness U50XR Upright Bike

Experience a unique workout with the design and unparalleled ergonomics of one of the industry's most stable, comfortable and versatile bikes. The U50 Upright bike with low step-in includes the exclusive Exact Force induction brake, Dual Form frame and Comfort Arc seat. The XR console has an easy-to-read, bright 8.5-inch LCD display. Keep track of your workout data so you can meet - and even exceed - your athletic goals.

CHF 3'190.00

Discover the unprecedented ergonomics of our Upright Bike. The Dual Form frame offers superior stability and an extra low step-in. With the Comfort Arc seat, you'll experience maximum comfort with outstanding support. The proven Exact Force induction brake provides fast, precise changes in resistance. Our Upright Bikes offer numerous adjustment options for your individual training position. If that's not enough, you can replace the saddle, handlebars and pedals with off-the-shelf models.

Dual Form Frame

The Dual Form frame greatly improves rider stability compared to single strut models and provides a low step-through height for easy entry.

Exact Force Induction Brake

The Exact Force Induction Brake provides fast, seamless and precise changes in resistance at the touch of a button. Because it requires no moving parts, it is also quieter and more durable.

Comfort Arc Seat

Our Comfort Arcseat is ergonomically designed to provide unparalleled comfort, support and balance during your workout.

Features:

- mains-powered Exact Force induction brake
- Training computer with 8.5 extra-wide blue backlit LCD display showing elapsed time, remaining time, distance, RPM, calories, speed, heart rate, watts, MET's, resistance
- Quick Start function

- 5 programs: manual, interval (resistance), watts (25-400W), target heart rate (resistance), sprint 8 workout program*: anaerobic workout program that promotes the natural production of growth hormones for weight loss, muscle building and aging prevention
- Workout Tracking
- Advanced Bluetooth - plug in your wireless headphones or optional Bluetooth heart rate monitor and connect to popular workout apps via Bluetooth
- 30 electronically adjustable resistance levels
- solid dual form steel frame construction for maximum stability
- low step
- multi-position grips with quick keys for resistance adjustment
- hand pulse sensors
- Comfort-Arc saddle ergonomic saddle for optimal seating comfort and additional support (can be exchanged)
- Quick seat height adjustment with Easy-Lift lever - the Easy-Lift lever allows the seat to be quickly adjusted to the ideal position
- The position of the handlebar and the height of the console can be adjusted to fit all body sizes
- Adjustable console height
- transport wheels at the front
- height adjustment
- large, non-slip, self-righting pedals
- adjustable pedal straps
- pedal spacing 194mm
- Handlebars, seat and pedals can be easily replaced with your own components if needed
- WiFi compatible (software updates, Viewfit)
- Passport integrated** (No Passport Set Up Box is required for playback on the device console (not on U50XR). If you want to play the tracks on an external TV, a Passport Set Up Box is required)
- Viewfit compatible*** - an exclusive form of workout tracking to connect your training device to your favorite fitness apps and social network
- guide price CHF 3'599.--

***SPRINT8 Training Programm** - the scientifically proven, high-intensity interval training program helps burn fat and build muscle in short workouts that anyone can fit into their everyday schedule.

****Passport Media Player** with Virtual Active is an interactive workout program in which the athlete runs, drives and hikes through real landscapes. Instead of staring at the walls while exercising, the exerciser can now experience the landscapes in a dynamic video - interactive and in HD quality. The training device varies the resistance according to the slope of the video landscape, the playback speed of the video in turn adapts to the pace of the trainee and even ambient sounds can be perceived.

***** Viewfit** - it is an exclusive form of workout tracking that can connect our training device with the user's favorite fitness apps and social network. Viewfit simplifies the process of collecting fitness data. Workouts completed on the fitness device at home now no longer need to be transferred separately to the fitness app being used, as the device takes care of that itself. There are two ways to keep track of athletic activities and results, set new goals or participate in competitions: the website www.viewfit.eu or the Viewfit app for iOS or Android.

Use: home use, payload: approx. 159kg

Device dimensions: L109 x W64 x H120cm, weight 55kg

Accessories: integrated receiver for chest strap transmitter, hand pulse sensors, bottle holder

Option: Bluetooth HR transmitter belt, floor mat

Warranty: 2 years full warranty

Brake system: Induction brake system

Current-dependent: Yes

Horizontal seat adjustment: No

Handlebar adjustable: Yes

Resistance levels: 30

Training computer: 8.5 inch LCD display

Displayed values: elapsed time, remaining time, distance, RPM, calories, speed, heart rate, watts, MET's, resistance

Training programs: 5

Pulse-controlled programs: keine

User-defined programs: keine
