

## Matrix Fitness E50XER Elliptical Trainer

Experience a unique workout with the design and unparalleled ergonomics of one of the industry's most stable, comfortable and versatile ellipticals. The E50 elliptical is compact enough to fit anywhere in the home and, thanks to Suspension Technology, has no rollers or rails, making it exceptionally quiet and low-friction, offering a floating and smooth motion. The XER console features a 10inch touchscreen display with an intuitive user interface that delivers easy access to various entertainment and apps. WiFi and Bluetooth included.

**CHF 5'049.00**

### **Suspension Elliptical Technology**

The exceptional suspension principle of the Matrix Suspension Elliptical Trainer enables a nearly floating and smooth motion. With no rollers or rails, the machine is exceptionally quiet, extremely low maintenance and durable.

### **Exact Force Induction Brake**

The Exact Force Induction Brake allows for quick, seamless and precise changes in resistance at the touch of a button. Because it requires no moving parts, it's also quieter and more durable.

### **Intelligent Ergonomics**

No matter your size, your motion will always be comfortable thanks to the ideal stride length and optimized pedal spacing. The low step-up height of only 23 cm makes it easy to start your workout, and the dual-action hand grips and generous pedals ensure maximum comfort even during long workouts.

### **Comfort in every detail**

Bottle holder, storage compartment, heart rate sensors on the hand grips, quick keys for resistance, dual-action multi-position grips, and oversized rubberized pedals ensure an all-around comfortable and convenient workout experience

### **Features:**

- mains-operated Exact Force induction brake.

- Training computer with 10inch (25.4cm) Class Touch Screen display showing calories, calories per hour, speed (mph/kph), heart rate, peak heart rate, distance, pace, average pace, METs, RPM, watts (15-525W), resistance, previous resistance, elapsed time, target time, time remaining, clock
- 11 programs: manual, interval (resistance), target programs (time, distance, calories), watts, target heart rate (resistance), Virtual Active programs (America's Northeast/Northern Rockies), \*Sprint 8 training program: anaerobic training program that promotes the natural production of growth hormones for weight loss, muscle building and aging prevention
- Quick Start function
- Workout Tracking

- Power saving mode - after 15 minutes of no activity, the console automatically goes into sleep

mode to save energy

- USB connection
- Indicative price CHF 5'799.--

**\*SPRINT 8 workout program** - scientifically proven high-intensity interval training program helps burn fat and builds muscle in short workouts that anyone can fit into their everyday schedule.

**\*\*Passport Media Player** with Virtual Active is an interactive workout program where the athlete runs, drives and hikes through real landscapes. Instead of staring at walls while exercising, the exerciser can now experience the landscapes in a dynamic video - interactive and in HD quality. The training device varies the resistance according to the slope of the video landscape, the playback speed of the video in turn adapts to the pace of the exerciser and even ambient sounds can be perceived.

**\*\*\* Viewfit** - it is an exclusive form of workout tracking that can connect our training device with the user's favorite fitness apps and social network. Viewfit simplifies the process of collecting fitness data. Workouts completed on the fitness device at home now no longer need to be transferred separately to the fitness app being used, as the device takes care of that itself. There are two ways to keep track of athletic activities and results, set new goals or participate in competitions: the website [www.viewfit.eu](http://www.viewfit.eu) or the Viewfit app for iOS or Android.

Use: home use, payload: approx. 147kg

Device dimensions: L148 x W84 x H173cm (required training area L175 x W84 x H177cm), weight 133kg

Accessories: integrated receiver for chest strap transmitter, Bluetooth HR transmitter belt, hand pulse sensors, bottle holder

Option: Virtual Active Videos, floor mat

Warranty: 2 years full warranty

Brake system: Induction brake system

Flywheel: 21 or more kg

Current-dependent: Yes

Stride length: 51 cm

Gradient: No

Resistance levels: 30

Training computer: 10 inch class touch screen display

Displayed values: Calories, calories per hour, speed (mph/kph), heart rate, peak heart rate, distance, pace, average pace, METs, RPM, watts (15-525W), resistance, previous resistance, elapsed time, target time, remaining time, clock

Training programs: 11

Pulse-controlled programs: keine

User-defined programs: keine

Hand pulse sensors: Yes

Pulse receiver: Bluetooth

Multimedia: Bluetooth interface, Passport compatible, Viewfit compatible, water bottle holder, tablet holder, USB port, energy-saving mode, integrated speakers

Foldable: No

Accessories: integrated receiver for chest strap transmitter

Options: Bluetooth transmitter belt, floor protection mat

Folding dimensions (length / width / height): No

Dimensions (length / width / height): L 148 x W 84 x H 173 cm

Device weight: 133 kg

Payload: approx. 147 kg

Insert: Home

Features: Stationary handles, movable multi-position handles
