

Matrix Fitness TF50XER Treadmill

With the TF50 treadmill from Matrix Fitness you experience a natural and powerful workout on an advanced combination of frame, running deck and drive. Hydraulic support for folding, controlled and silent lowering of the running surface and upright transport allows you to choose your training location. The XER console features a 10" touchscreen display with an intuitive user interface that provides easy access to various entertainment options and apps. WiFi and Bluetooth included.

CHF 5'590.00

Experience a workout as natural as it is powerful on the most advanced combination of frame, running deck and drive. The Matrix Fitness TF50 treadmill has a space-saving folding mechanism and is as stable as a conventional treadmill. The extra long running surface and the exclusive Johnson Drive System with the Ultimate Deck guarantee thousands of miles of running fun. Everything that makes training comfortable is within reach: large control buttons for incline and speed on the front handrail, as well as bottle holder, tablet tray or USB port.

Ultimate Deck System

Exclusive system with robust frame, extra thick running deck and professional damping properties.

Johnson Drive System

Digital drive system for continuously strong and at the same time quiet running performance. Exclusive Responsive Digital Drive System recalibrates with every step.

Features:

- 3.25hp Johnson digital drive system (Johnson Drive) - resynchronizes with every stride.
- Training computer with 10inch (25.4cm) Class Touch Screen display showing calories, calories per hour, speed (mph/kph), previous speed, heart rate, peak heart rate, distance, pace, average pace, METs, RPM, incline%, previous incline%, elapsed time, finish time, time remaining, altimeter, clock
- 10 programs: Manual, hill, interval (incline), target programs (time, distance, calories), target

heart rate (pace), Virtual Active programs (America's Northeast/Northern Rockies), *Sprint 8 training program: anaerobic training program that promotes the natural production of growth hormones to help reduce weight, build muscle and prevent aging

- Quick Start function
- Workout Tracking
- Advanced Bluetooth - connect your wireless headphones or optional Bluetooth heart rate monitor and connect to popular workout apps via Bluetooth
- Entertainment APPs - easily enjoy your favorite shows, music and movies while you workout. The touchscreen consoles come with Netflix, YouTube, Spotify and other popular entertainment apps**** where you can effortlessly log in with your own account -
- Social Media - Premium consoles include Facebook, Twitter, Instagram, PressReader and Weather apps **** to help you stay connected while working out and share your successes (**** availability from APPs may vary at any time)
- My Media - Play music and video content on the console by connecting your mobile device to the console via USB. Compatible with most Android smartphones, tablets and MP3 players.
- Virtual Active - Experience a captivating, interactive workout with stunning footage that syncs with the intensity and speed of your workout. Touchscreen consoles already include two Virtual Active tracks. Already integrated tracks: American Northeast, Northern Rockies (additional tracks available on USB stick Pack A, B, C, O).
- Web browser - includes a web browser for relaxed browsing of your favorite websites
- WiFi Compatible - connect the console to WiFi for software updates, web browsing, and entertainment app use
- Quick Start function
- Soft touch buttons
- Running surface 51x152cm
- Speed 0,8-20km/h
- Gradient 0-15%
- Easy Fold foldable frame for space-saving storage - with the dynamic folding mechanism, it's a breeze to raise the treadmill to nearly 90 degrees and store it in the corner thanks to the four transport wheels. When you're ready for your next run, all you have to do is unlock it for the deck to gently lower back down.
- convenient 4-wheel transport system
- Cushioning: Ultimate Deck System - provides years of reliable performance
- Aluminum side rails
- soft touch buttons
- belt thickness 2-ply, 2,2mm
- deck 2,5cm
- grips, stationary grips with quick keys for resistance and incline adjustment
- Hand pulse sensors
- WiFi compatible (software updates, Viewfit)
- integrated 3Watt speakers - with the integrated speakers you have the possibility to listen to your shows, movies, music and programs without headphones
- Audio in and out - connect your media player to the console to use the built-in speakers, or connect your headphones to the console to hear the sound through your own device
- Passport integrated** (Passport set up box is not required for playback on the device console (not TF50XR). If you want to play the tracks through an external TV, a Passport Set Up Box is required)
- Viewfit Compatible*** - an exclusive form of workout tracking to connect your workout device to your favorite fitness apps and your social network

- Power saving mode - after 15 minutes of no activity, the console automatically goes into sleep mode to save energy
- USB connection
- Indicative price CHF 6'399.--

***SPRINT 8 workout program** - scientifically proven high-intensity interval training program helps burn fat and build muscle in short workouts that anyone can fit into their everyday schedule.

***Passport Media Player** with Virtual Active is an interactive workout program in which the athlete runs, drives and hikes through real landscapes. Instead of staring at the walls while exercising, the exerciser can now experience the landscapes in a dynamic video - interactive and in HD quality. The training device varies the resistance according to the slope of the video landscape, the playback speed of the video in turn adapts to the pace of the trainee and even ambient sounds can be perceived.

**** Viewfit** - it is an exclusive form of workout tracking that can connect our training device with the user's favorite fitness apps and social network. Viewfit simplifies the collection of fitness data. Workouts completed on the fitness device at home now no longer need to be transferred separately to the fitness app being used, as the device takes care of that itself. There are two ways to keep track of athletic activities and results, set new goals or participate in competitions: the website www.viewfit.eu or the Viewfit app for iOS or Android.

Use: home use, payload: approx. 181kg

Device dimensions: L206 x W90 x H158cm, folding dimensions: L106 x W90 x 192cm, weight 135kg

Accessories: Bluetooth HR transmitter belt, integrated receiver for chest strap transmitter, hand pulse sensors, bottle holder, device holder
