

Matrix Fitness TF50XUR Treadmill

With the TF50 treadmill from Matrix Fitness you can experience a natural and powerful workout on an advanced combination of frame, running deck and drive. Hydraulic support when folding, controlled and silent lowering of the running deck and upright transportation allow you to choose your own training location. At 22 inches, the XUR console offers the largest touchscreen display in brilliant HD quality. Go on virtual journeys, use familiar apps or watch movies and series. Including WiFi, Bluetooth and HDMI connection. Stream what moves you!

CHF 6'590.00

Experience a training session that is as natural as it is powerful on the most advanced combination of frame, running deck and drive. The Matrix Fitness TF50 treadmill has a space-saving folding mechanism and is as stable as a conventional treadmill. The particularly long running surface and the exclusive Johnson Drive System with the Ultimate Deck guarantee thousands of kilometers of running fun. Everything that makes training comfortable is within easy reach: large control buttons for incline and speed on the front handrail, as well as a bottle holder, tablet holder or USB port.

Ultimate Deck System

Exclusive system with robust frame, extra thick running deck and professional damping properties.

Johnson Drive System

Digital drive system for continuously strong and quiet running performance. The exclusive Responsive Digital Drive System recalibrates itself with every step.

Features:

- 3.25 HP Johnson digital drive system (Johnson Drive) - re-synchronizes with every stride
- Training computer with 22-inch (55.9cm) class touch screen display showing calories, calories per hour, speed (mph/kph), previous speed, heart rate, peak heart rate, distance, pace, average pace, METs, RPM, incline%, previous incline%, elapsed time, target time, remaining time, altimeter, clock

- 11 programs: Manual, hill, interval (incline), target programs (time, distance, calories), target heart rate (speed, incline), target heart rate (incline), Virtual Active programs (America's Northeast / Northern Rockies), *Sprint 8 training program: anaerobic training program that promotes the natural production of growth hormones and thus helps to reduce weight, build muscle and prevent aging
- Quick Start function
- Workout tracking
- Advanced Bluetooth - connect your wireless headphones or the optional Bluetooth heart rate monitor and connect to popular training apps via Bluetooth
- HDMI - High Definition Multimedia Interface - simply connect your digital mobile devices via the HDMI port and play their content. The ability to enjoy favorite shows and movies, browse social feeds and much more on the high-resolution screen. Simply connect your phone or tablet via HDMI to play your device on the high-resolution LED screen. Or display your favorite apps from your streaming device. Mirror your smart phone on the treadmill console - simply connect your phone via HDMI cable and then click on the HDMI button in the apps on the console.
- Entertainment APPs - enjoy your favorite shows, music and movies while you work out. The touchscreen consoles come with Netflix, YouTube, Spotify and other popular entertainment apps****, which you can effortlessly log in to with your own user account -
- Social Media - Premium consoles include Facebook, Twitter, Instagram, PressReader and weather apps **** to help you stay connected and share your workout successes (**** app availability may vary at any time)
- My Media - Play music and video content on the console by connecting your mobile device to the console via USB Compatible with most Android smartphones, tablets and MP3 players
- Virtual Active - Experience an immersive, interactive workout with stunning footage synchronized to the intensity and pace of your workout. The touchscreen consoles already include two Virtual Active tracks. Already integrated tracks: American Northeast, Northern Rockies (additional tracks available on USB flash drive Pack A, B, C, O)

- Power saving mode - after 15 minutes of inactivity, the console automatically switches to sleep mode to save energy
- USB connection
- Target price CHF 7'599.--

***SPRINT 8 training program** - the scientifically proven, high-intensity interval training program helps burn fat and build muscle in short workouts that anyone can fit into their daily schedule.

***Passport Media Player** with Virtual Active is an interactive training program in which the athlete runs, drives and hikes through real landscapes. Instead of staring at the walls while training, the exerciser can now experience the landscapes in a dynamic video - interactively and in HD quality. The training device varies the resistance according to the gradient of the video landscape, the playback speed of the video in turn adapts to the pace of the exerciser and even ambient noise can be heard.

**** Viewfit** - this is an exclusive form of workout tracking that can connect our training device with the user's favorite fitness apps and social network. Viewfit simplifies the recording of fitness data. Training sessions completed at home on the fitness device no longer need to be transferred separately to the fitness app used, as the device does this itself. There are two ways to keep an eye on your sporting activities and results, set new goals or take part in competitions: the website www.viewfit.eu or the Viewfit app for iOS or Android.

Use: Home use, payload: approx. 181kg

Device dimensions: L206 x W90 x H158cm, folding dimensions: L106 x W90 x 192cm, weight 135kg
