

## Sponser Vegan Protein 480g bag

Sponser® VEGAN PROTEIN combines protein sources from quinoa, sunflower seeds, peas and rice into a high-quality vegan protein powder. The innovative protein blend from purely plant-based sources delivers approx. 23 g of protein per serving as well as the full spectrum of amino acids in a balanced ratio. Available in chocolate flavor or as a neutral flavor. The latter is only minimally mixed with natural vanilla extract and flavoring and can thus be refined as desired with fruits or the like. Likewise, VEGAN PROTEIN can be used as a versatile protein powder, for example as an addition to muesli, yogurt or quark.

**CHF 37.00**

Due to its high-quality protein ingredients VEGAN PROTEIN is a good alternative to conventional protein shakes based on milk protein. VEGAN PROTEIN contains only a small amount of carbohydrates and fats. One serving consists of over 20g of protein and also provides natural dietary fibers for lasting satiety.

VEGAN PROTEIN is ideal as an everyday protein, as well as in connection with sports and strength training. Here, the protein supports the development and maintenance of muscle mass.

- High quality vegetable protein sources
- Balanced amino acid profile
- Gluten and lactose free, without soy
- Low-carb, low-fat

The combination of protein and natural dietary fiber makes VEGAN PROTEIN a valuable supplement in a low carb diet. For people on a vegan diet, Sponser® recommends additional supplementation with L-carnitine. A purely plant-based or ovo-lacto-vegetarian diet provides only small amounts of L-carnitine, which is usually found in meat.

**Ingredients:** Protein powder 96% (peas, quinoa, rice, sunflower seeds), vanilla extract with natural vanilla flavor, thickeners (guar gum, xanthan gum), sweetener steviol glycosides.
