

All Stars Amino 10'000 can with 240 tablets

All Stars Amino 10'000 consists of a large number of essential and semi-essential amino acids. The product contains lactalbumin hydrolyzate (whey protein hydrolyzate) which has been enzymatically broken down using a special process. All Stars Amino 10'000 is perfect for athletes in muscle building phases.

CHF 42.90
