

Body Solid Pro Club Line Series II Cable Column (S2CC)

Commercially rated - built with precision - Body Solid's Pro Club Line Series II consists of 17 single and dual function stations and offers a complete range of equipment, providing facilities with strength stations for the entire body. Each station is designed to be biomechanically correct. Multiple adjustment options allow each user to achieve high quality and natural movement.

CHF 2'990.00

The Body Solid Pull Tower combines the performance and durability of Body-Solid's commercial Pro Club Line Series II with a virtually unlimited range of exercise options. The S2CC's compact footprint and easy adjustments make it ideal for any home gym or commercial fitness space.

The S2CC features a fully covered, sleek enclosure that offers both aesthetic and safety benefits. With commercial-grade cables and construction, the S2CC is designed to withstand even the most strenuous workouts without sacrificing effectiveness.

36 different starting positions allow users to perform any number of exercises with high, medium or low training positions. Adjustable pulley swivels 180 degrees, increasing both range and variety of exercise options

The S2CC Cable Column includes a nylon pull handle, short rowing bar and foot strap. Attach additional handles to the S2CC and open up a whole new world of exercise. The S2CC combines efficient, space-saving design, user-friendly ergonomics and adjustability, and precision-fit components to create one of the most compact and versatile machines on the market.
