

BRUTEforce® Functional Trainer Smith Machine 270PTM

The BRUTEforce® Functional Trainer Smith Machine is a free weight rack, multi press and functional trainer in one and offers all the essential exercises for bodybuilding, body toning, endurance, strength and body shaping. The 270PTM from BRUTEforce® not only offers guided and free barbell training, but also a fixed rowing station and a double cable pull system for varied fitness and strength training.

CHF 2'399.00

Features:

- high-quality strength training equipment with top design and high-quality workmanship - developed in Australia
- Multipress with linear bearing - equipped with adjustable safety hooks so that maximums can be performed safely. The counterweight system is ideal for beginners or rehabilitation when near-zero resistance is required.
- functional, height-adjustable double roller system
- 270° rotation of the pull handles
- free weight support including height-adjustable J-hooks and safety stops with protective rubber to protect the barbell and minimize noise
- Core trainer included - in combination with a rotating 50 mm barbell, three-dimensional mobility is achieved. This allows a wide range of dynamic and highly effective exercises to be performed
- Quick, easy and safe handling
- seated rowing station with footrest
- pull-up station with multiple grip options
- optimum freedom of movement
- maximum safety
- high stability
- stable construction made of 70 x 50 x 3 mm thick tubular steel
- quick, easy and safe handling
- including 6 chrome-plated disc holders (diameter 50mm) for storing discs
- surface treated with corrosion-resistant powder coating
- with rubberized protective feet, gentle on the floor

- in gray-anthracite/copper color combination
