GYM RINGS - Gymnastic rings made from real birch plywood in Finland.

Gym rings are the kind of equipment that no home should be without. They enable a variety of exercises and guarantee efficient training, especially for strength and coordination. The wooden gymnastic rings are very easy to grip and fit perfectly in the hand. The varying resistance makes workouts even more versatile. The exercises with the gymnastic rings challenge you almost continuously and help you to continually increase your flexibility and strength.

Wooden FitWood GYM RING in black with black loop:

- Outer diameter 236 millimetres
- Inner diameter approx. 18 centimetres
- Thickness 28 millimeters

The gymnastics rings are delivered to your home with durable and stylish suspension ropes. You can use the ropes to attach the rings to the ceiling or a pull-up bar, for example. The ropes are 5 meters long (adjustable up to 2.5 meters) and can support a weight of up to 150 kilograms. We recommend an installation width of 50 centimetres.
