

VLUV VEGA Faux Leather Seated Ball, Dark Grey, 60-65cm

Hard to believe how grippy and natural the innovative material feels, almost like real! The new VEGA seating ball series offers a vegan outer material that is breathable and durable. The cool used look is made even more realistic by the contrast stitching. The balls blend perfectly into stylish home offices or high-end living environments. And VLUV is healthy, too.

CHF 179.00

fixFORM

Sits more upright compared to a PVC ball thanks to taut cover

gripME

design-patented handle for easy and safe transport

duoTHREAD

Double seam for durable use and longevity

unROLL

Integrated bottom ring prevents the ball from rolling away too easily

extraSAFETY

2-fold ball cover - hardly expands and extremely burst-resistant

lightWEIGHT

Easy to transport seating furniture

- ball diameter approx. 60-65cm
