

ICG IC4 Indoor Cycle

The IC4 Indoor Cycle from ICG combines innovative design with high-quality mechanical components, making it a premium bike in its class. The belt drive and magnetic brake system enable virtually maintenance-free use and also create an optimal riding experience.

CHF 2'190.00

Equipment

- Magnetic brake system
- Magnetic resistance control via rotary knob - the magnetic brake system offers a wide resistance range and also guarantees long-term, maintenance-free use. The resistance can be adjusted extremely quickly and precisely with just one turn of the hand using a rotary knob with a 300° adjustment range and 100 tactile notches
- Poly-V V-belt drive
- Assisted height adjustment on the handlebars - the handlebars can be adjusted vertically without much effort thanks to the integrated gas-oil pressure system. This enables quick and easy adjustment of the handlebar position
- Full covering of the frame
- Drive system with Poly-V V-belt - the Poly-V belt drive transmits even extreme forces effectively and ensures perfect acceleration and optimum inertia of the flywheel. Belt drives require less maintenance, save the studio operator costs and reduce the vulnerability of the bikes. They also have fewer failures and are quieter to use
- 4-way adjustment of handlebars and saddle - the 4-way adjustment on handlebars and saddle allows optimum adjustment of the seating position. High-quality saddle and handlebar supports made of aluminum with stainless steel insert make adjustment easier for the user and also ensure long-term durability
- Emergency brake function (push) (EN ISO 20957-10)
- Gear ratio 1:10
- V-frame geometry with 155mm Q-factor
- Ergonomic handlebars with many grip variants, soft PVC
- Combi pedal system (SPD : regular)

- Dual bottle cage on the handlebars
- Padded unisex sports saddle
- Stabilizers incl. adjustable feet
- High-quality kick plates incl. calf stretch
- suitable for body heights from 158-205cm
- Target price CHF 2'350.--

Use: Home use to light institutional use, payload: approx. 150kg

Equipment dimensions: L132 x W52 x H120cm, weight 50kg

Option: Floor protection mats

Warranty: Home use: 2 years full warranty: Light institutional use: 1 year full warranty (max. 1000 hours per year) (CH Service)

Brake system: Manual magnetic brake

Current-dependent: No

Horizontal seat adjustment: Yes

Vertical seat adjustment: Ja

Horizontal handlebar adjustment: Ja

Vertical handlebar adjustment: Ja

Freewheel: Nein

Pulse receiver: keiner

Options: Transmitter belt, floor protection mat

Payload: approx. 150 kg

Insert: Home to light institutional use
