

Sponser Whey Isolate 94 in 1500g bag

Rapidly available whey protein isolate from cross flow microfiltration with a similar amino acid composition to the body's own muscle protein. For building and maintaining muscle mass.

CHF 80.00

Whey proteins from Cross Flow Microfiltration are available very quickly and have a similar amino acid composition to the body's own muscle protein. The high-quality production process guarantees the highest possible preservation of the valuable protein fractions (including lactoferrin, glycomacropeptides, peptide fragments) and is therefore particularly suitable for effective muscle growth.

Advantages

- High biological value (170 according to Oser)
- CFM production process
- High content of essential amino acids (BCAA 250 mg/g pure protein)
- Lactose-free
- Valuable immunoglobulins to strengthen the immune system
- Alpha-lactalbumin 15%
- Beta-lactalbumin 56%
- Glycomacropeptides 20%
- Immunoglobulins 3%

To support muscle and mass building, take approx. 30 minutes before training or directly after training. Suitable for enriching Mass Gainer or Recovery Formula or as an additive to other products.

Packaging unit: 1500g bag

Flavors: neutral, chocolate, vanilla, strawberry, banana, caffe latte
