

Weider CFM Whey Protein 908g can

CFM Whey Protein Isolate is the absolute gold standard among our protein powders. Whey protein isolate is the purest form of whey protein. The abbreviation CFM stands for "cross-flow-microfiltration", i.e. the filtration method used to obtain the high-purity whey protein. With its enormously high protein content of up to 90% (in the tasteless version), CFM Whey Protein helps to maintain and build muscle mass.

CHF 59.00

- enormously high protein content
- pure whey protein isolate
- over 25g BCAAs per 100g protein
- almost carbohydrate- and fat-free when prepared in water!
- perfect source of protein as part of a calorie-reduced diet
- enormously high protein content thanks to special filtration (CFM)
- super solubility

Recommended intake:

1 portion after training. Stir 30g powder (2 heaped tablespoons) into 300 ml low-fat milk (1.5%).

Packaging unit: 908g can

Flavors: neutral, vanilla, chocolate, strawberry, cookies & cream

Content: 908g
