

Micro Maxi Micro Deluxe black/orange LED (MMD143)

The Maxi Micro originally intended as the successor to the Mini Micro, especially for children who have outgrown the Mini Micro but are still too small and too light for an aluminum kickboard. Over the course of time the ultra-light Maxi Micro became a trendy product for young at heart adults, so we have redesigned it and strengthened the footboard to so that it can carry a body weight of up to 70 kg. New also the Maxi Micro Deluxe with sparkling LED light.

CHF 139.00

It weighs only 2.5 kg, so the steering is particularly easy and you virtually glides over the asphalt. The anti-slip coating on the footboard provides a secure grip of the anodized handlebars emphasizes the elegant look of the Maxi Micro Deluxe series.

LED wheels

The way to school becomes a light show - thanks to the illuminated wheels, you can be seen from afar, even in the dark. The LED version not only looks cooler, but also ensures greater for greater safety.

Weight steering

The patented Kickboard works by shifting the weight of your own body. own body weight. We developed this system together with Swiss specialists and promotes balance, motor skills and coordination of the rider. In addition, this control system creates a very special driving experience and is suitable for all ages.
