

BenchK metal pull-up bar and dumbbell rack to rafter wall (PB3B/PB3W)

BenchK PB3B/PB3W metal can be used as a pull-up bar or also as a rack for barbell bars. The pull-up bar allows you to perform exercises on different muscle groups. The pull-up bar is equipped with six non-slip handles with polyurethane coating for easy exercises. The dumbbell rack can be used with the inclusion of a bench for various barbell exercises such as bench press, incline bench press or even biceps training with a curl bar. The pull-up bar and barbell rack is removable and can be set at different heights. Adults and teenagers can exercise on the same wall bars, thanks to the easy removal of the pull-up bar and its change to the appropriate height.

CHF 395.00

The profile construction is 40 x 50mm with a metal thickness of 2mm and a tube diameter of 27.2mm.

The PB3B/PB3W pull-up and barbell rack fits all BenchK series 2/3/7 wall bars
