The wall bars BenchK 722B set includes the BenchK wall bars 700B including the BenchK chin-up bar PB2B and the BenchK Dip Station DB1B.

BenchK 700B wall bars is a robust construction. The rungs are made of beech wood and the side rails are made of metal. The wall bars is an attractive piece of sports furniture for the whole family and fits seamlessly into the living room. It can be used by any user, regardless of age and physical fitness, up to a weight of 150kg. The BenchK 700B wall bars will help to improve physical development. Regular exercises on the wall bars contribute to the development of various muscle groups, spine and joint mobility.

The PB2B metal pull-up bar is permanently mounted on the wall bars and is not removable. The pull-up option allows you to perform exercises on different muscle groups. The pull-up bar is equipped with six non-slip handles with polyurethane coating for easy exercises. Additional supports are made of 4mm thick metal. The main construction consists of a rectangular profile 50 x 40mm and a tube fi 27,2mm (wall thickness 2mm). All metal parts are powder coated. The precision of workmanship and ideal

shapes are achieved by using modern welding and laser cutting technologies.

The BenchK Dip Bar with back pad can be directly and easily hooked to the rungs of any BenchK wall bars thanks to the four hooks padded by felt. The height of the dip bar can be individually hooked for the convenience of each user. The arm rests and back pad are made entirely of high quality polyurethane (PU) foam, which ensures a durable, resilient and easy-to-clean finish and allows for comfortable exercise performance. BenchK's Dip Bar has a sturdy construction with a profile of 50×40mm and a thickness of 2mm. The four handles are non-slip and highly comfortable to hold.
