The wall bars BenchK 733W set includes the BenchK wall bars 700W including the BenchK pull-up bar/barbell rack PB3W, the dip rack DB1W and the training bench B1W.

The wall bars BenchK 700W is a sturdy construction. The rungs are made of beech wood and the side bars are made of metal. The wall bars is an attractive piece of sports furniture for the whole family and fits seamlessly into the living room. It can be used by any user, regardless of age and physical fitness, up to a weight of 150kg. The BenchK 700B wall bars will help to improve physical development. Regular exercises on the wall bars contribute to the development of various muscle groups, spine and joint mobility.

BenchK PB3W made of metal can be used as a pull-up bar or also as a rack for barbell bars. The pull-up bar allows you to perform exercises on different muscle groups. The pull-up bar is equipped with six non-slip handles with polyurethane coating for easy exercises. The dumbbell rack can be used with the inclusion of a bench for various barbell exercises such as bench press, incline bench press or even

biceps training with a curl bar. The pull-up bar and barbell rack is removable and can be set at different heights. Adults and teenagers can exercise on the same wall bars, thanks to the easy removal of the pull-up bar and its change to the appropriate height. The profile construction is 40 x 50mm with a metal thickness of 2mm and a tube diameter of 27.2mm.

The BenchK Dip Bar DB1W with back pad can be hooked directly and easily to the rungs of any BenchK wall bars thanks to the four hooks padded by felt. The height of the dip bar can be individually hooked for the convenience of each user. The arm rests and back pad are made entirely of high quality polyurethane (PU) foam, which ensures a durable, resilient and easy-to-clean finish and allows for comfortable exercise performance. BenchK's Dip Bar has a sturdy construction with a profile of 50x40mm and a thickness of 2mm. The four handles are non-slip and highly comfortable to hold.

BenchK's B1W reversible training bench is equipped with an extra seat and four extra support rollers for the legs. The BenchK training bench can be directly and easily hooked to the rungs of any BenchK wall bars from flat to inclined. It can be used as an abdominal bench as well as a weight bench. The training bench is available in black or white frame colors. The inclination of BenchK's workout bench can be individually hooked in height for the convenience of each user. The padding of the training bench is completely made of high quality polyurethane (PU) foam, which ensures durable, elastic and easy to clean equipment and allows comfortable exercise performance. BenchK's training bench has a sturdy construction with a profile of 50x40mm and a thickness of 2mm. The training bench from BenchK is used for abdominal training. The upholstered rollers provide a secure grip during the exercise performance. The insertable seat allows the bench to be used as a weight bench suspended from the wall bars. The retractable legs allow for space-saving storage.
