- high content of unsaturated fatty acids from almonds

**CHOCO PROTEIN ALMONDS** - Fine almonds coated with sugar-free chocolate and extra whey protein. Suitable for chocolate lovers and fitness enthusiasts who care about nutrition and ingredients as much as taste.

Almonds are an excellent source of healthy fats, vegetable protein and valuable dietary fiber. In Mediterranean regions, almonds are one of the staple foods of the population and are therefore often consumed salted or in combination with grapes as a tasty snack. Almonds also serve not only as a source of energy, but are also carriers of minerals and fat-soluble vitamins.

Packaging unit: 12 x 45g
