

Body Solid Multi Accessory Rack GAR100

The Body-Solid GAR100 Multi Accessory Rack combines the most popular racks into one compact, easy storage solution. The GAR100 Multi Accessory Rack is designed to store medicine balls, slam balls, exercise balls, resistance bands, exercise mats and more. The entire vertical post of the rack is drilled, allowing users to adjust the height and width of the medicine ball and gym ball holders. The included caster wheels allow for easy mobility and portability, but can be omitted for those who want to bolt the Body Solid Accessory Rack to the floor.
