Sissel Sit Air seat cushion

The use of the Sissel Sit Air combines the desired upright posture through a seat wedge with the dynamics of an unstable inflatable cushion. It is a dynamic, multifunctional seat wedge for use in rehabilitation, at home, at work or anatomically anywhere correct and comfortable sitting is desired. With the Sissel Sit Air, the user not only sits upright, but also exercises his back and trunk muscles almost unconsciously. The wedge cushion is available in two different colors. The accompanying mesh cover allows air circulation.

CHF 79.90

The use of the SISSEL® SIT AIR combines the desired upright posture provided by a seat wedge with the dynamics of an unstable inflatable cushion. It is a dynamic, multifunctional seat wedge for use in rehabilitation, at home, at work or anywhere anatomically correct and comfortable sitting is desired. With the SISSEL ® SIT AIR, the user not only sits upright, but also trains his back and trunk muscles almost unconsciously.

The SISSEL ® SIT AIR offers support for many medical indications. These include the treatment, relief and prevention of posture-related muscular imbalances and back pain, as well as balance training. The density of the special foam provides the right balance between support and comfort.

- · permanent, gentle mobilization of the back and trunk muscles
- the comfortable wedge cushion for active, upright sitting
- foldable and reducible due to the valve, practical to take along everywhere
- for long journeys in the car or airplane
- material cushion core: PU foam, cover: 100% polyester
- Mesh cover: 100% polyester, allows air circulation
- Bottom side with anti-slip coating prevents annoying slipping
- Dimensions: approx. 34 x 37 x 4cm
- Colors: blue, black
