

Jordan Fitness Olympic Weightlifting Drop Pads (JLC-WLDP)

The Weightlifting Drop Pads are designed to protect your weights from heavy clean and snatch moves and deadlifts. They also keep the peace between you and your neighbors and reduce and dampen the noise of your repetition sets.

CHF 249.00

- whether a personal training studio or at home - the drop pads guarantee a smooth lifting experience
- the thick EVA foam on the top layer consists of two foam constructions and is both soft and resilient, with unbeatable compression recovery properties. The bottom layer is twice as thick and consists of a dense sponge that absorbs the noise and vibration of the Olympic lifts
- with fixed handles for easy transportation
- with a rainproof PVC cover
- Dimensions: L100 x W60 x DH15cm, weight 7kg per pad
- Price per pair
