

## Finnlo Treadmill Performance

Finnlo Performance - the high-tech performance treadmill for demanding endurance runners. The Finnlo Performance offers a 10.1 inch color TFT touch screen with Bluetooth and WLAN function. With the Screen Mirroring function, content and apps such as Kinomap and ZWIFT can be mirrored from a compatible tablet/smartphone to the display of the Performance treadmill. Simple and fast without a cable connection. This offers varied training options. The Finnlo Performance is an intelligent all-rounder treadmill with interactive training methodology.

**CHF 2'990.00**

### **Console with color TFT touch display**

The treadmill console is used to control the running speed and incline via the various quick selection buttons. Directly on the console, a tablet holder provides space for a mobile device. With the computer keys one has immediate access to all important training settings. One controls with the individual buttons, among others, the training start/stop, the incline and the speed. The Bluetooth-enabled computer is quickly connected to the tablet or smartphone and pre-installed apps thus enhance the running experience. The computer has a WLAN function for even more variety! The treadmill can be connected to a hotspot or the home network for using the various fitness apps and for internet access. With the Screen Mirroring function, content and apps such as Kinomap and ZWIFT can be mirrored from a compatible tablet/smartphone to the display of the Performance treadmill. Simple and fast without cable connection. The advantage: additional installed apps and content become available on the tablet/smartphone, which are not installed on the treadmill computer. The content from the tablet is mirrored directly to the treadmill display.

### **Live track experience with Kinomap and ZWIFT**

**Get off the couch and onto the treadmill!** The APP ZWIFT is installed on the tablet. Simply and quickly connect via Bluetooth with the treadmill computer. With ZWIFT you run through fascinating virtual worlds and with a global running community. Train together and sprint to new heights with other sports enthusiasts from around the world. With the APP Kinomap, the resistance is automatically adjusted in real time to the gradient of the distance currently being run. When going uphill, the resistance is automatically increased, when going downhill, it is automatically decreased. The running speed

automatically adjusts in real time to the user's current speed. The speed increases for sprints and decreases for slow runs. The integrated USB port automatically charges the smartphone or tablet during the running workout. Music and movies can be played via USB sticks. The integrated speakers also provide an acoustic running experience.

### **The running surface of the Performance**

The large running surface impresses with a dimension of 152 x 51cm. With the stable construction, runners with a body weight of up to 180 kg can enjoy an authentic running experience. In addition, the performance treadmill offers a 3.1mm thick orthopedic running belt. This has a positive effect on the entire musculoskeletal system, improves running dynamics and relieves pressure on the foot, knee and hip joints as well as the spine. The vibration-damped Super treadmill surface and the joint-gentle 8-point cushioning system give a realistic running feeling like on a forest floor. Even longer workouts are comfortably managed with the Performance treadmill's innovative treadmill technology.

### **Features:**

- 3.5hp continuous duty motor
- incline electronically adjustable 0-15% in 1% steps
- Speed electronically adjustable from 0.8-22km/h in 0.1km/h increments
- Foldable (vertical folding function)
- Running surface 152 x 52cm
- 3,1mm orthopedic running belt
- vibration damped treadmill surface with 8-point damping system
- 10.1" TFT touch display showing distance, speed, heart rate, calories burned, incline, time
- Central Control Button
- 10 preset training programs
- 3 user programs
- 3 heart rate programs
- Upper pulse limit adjustable
- Kinomap APP\* - compatible - by connecting the tablet via Bluetooth to the training computer, Kinomap offers a maximum realistic live track experience. The Kinomap APP turns training into a motivating, interactive training experience, whether alone or in competition mode. Over 170,000 varied route kilometers for the various sports have already been uploaded by users - Kinomap automatically adjusts the resistance in real time to the gradient of the route currently being run. When going uphill, the resistance is automatically increased, when going downhill, it is automatically decreased. The running speed automatically adjusts in real time to the current speed of the exerciser. For sprints, the speed increases, for slow runs, the speed decreases.
- compatible with ZWIFT - with ZWIFT you run through fascinating virtual worlds and with a global running community. Train together and sprint to new heights with other sports enthusiasts from around the world.
- Pre-installed APP's like Facebook, Twitter, Instagram, YouTube, Netflix, Google Chrome - with the most important social media platforms like Facebook, Instagram, Twitter and YouTube, personal running performance is taken to a new level by presenting it to the community and sharing it with family and friends as well.
- Quick direct selection buttons - directly change speed (8 speed direct selection buttons) and incline (8 incline direct selection buttons) - 8-way "one-click" adjustment
- USB charging function
- Aux connection
- Bluetooth function - Bluetooth interface for pairing a SMART device such as smartphone or tablet

- WLAN function
- Hand pulse sensors
- integrated loudspeakers
- belt stop safety key
- transport wheels
- height compensation
- water bottle holder
- Smart-Device holder for tablet or smartphone storage
- recommended guide price CHF 3'199.--

Use: home use, payload: approx. 180kg

Unit dimensions: L200 x W90 x H135cm, folding dimensions: L110 x W95 x H162cm, weight 121kg

Accessories: integrated receiver for chest strap transmitter (5khz), hand pulse sensors

Options: Transmitter belt, floor protection mat

Warranty: 2 years full warranty, 3 years on spare parts

### **Kinomap APP\***

The Kinomap APP turns workouts into a motivating, interactive training experience. The APP provides videos for cross trainer, ergometer, treadmill and rowing machine. Via Bluetooth, the Kinomap APP is connected to the training device. Pick a route and ride, run or row as if you were there yourself. The progress of the route can be tracked on the map. Since the videos are geocoded, the APP also adjusts the resistance (on selected models) to the terrain profile of the training route.

Train more than 170,000km alone or in competition with others - the Kinomap videos are uploaded by users. There are already more than 170'000 varied track kilometers available for the different sports. All videos are marked with location data, so you can not only watch the video, but also see on the map where you are and what the terrain profile looks like. The app also displays the most important training data during the workout, so you can keep an eye on your performance while running through Central Park, for example. The multiplayer sessions are also particularly challenging, where you can participate in public races or arrange to meet friends for a little race. Kinomap is available in a free basic version on both Google Play and the AppStore. There are different license models for the full version.

Engine power: 3.5 HP DC motor

Speed: 0.8-22km/h in 0.1km/h steps

Tread: 152 x 51 cm

Gradient: 0-15% in 1% steps

Training computer: 10.1" TFT Touch Display

Displayed values: Distance, speed, heart rate, calories burned, incline, time

Training programs: 10

Pulse-controlled programs: 3

User-defined programs: 3

Hand pulse sensors: Yes

Pulse receiver: 5khz

Multimedia: Kinomap, Zwift, Bluetooth interface, WiFi compatible, ingerated speakers, tablet holder, USB charging function.

Foldable: Yes

Accessories: integrated receiver for chest strap transmitter (5khz), hand pulse sensors, bottle holder

Options: Transmitter belt, floor protection mat
