

Style Fit Smart Package to PURE Bike

The "Smart Package" for the Stil-Fit Ergometer PURE is aimed at customers who want to get even more out of their training, are interested in technology, apps, etc., and want to track their performance progress. Set personal goals, track performance development, export data, race, and much more - all possible with the "Smart Package".

CHF 249.00

STIL-FIT has developed its own app with which you can motivate, save all training data for the day and much more. You can also connect your Apple Watch to the app and control the cardio program with your pulse values. The data transfer to Apple Health is included.

With the optionally available Stil-Fit Smart package, the STIL-FIT PURE ergometer is compatible with the Stil-Fit APP and various training apps such as Kinomap, Zwift, Rouvy and BKool. Enjoy a ride on Mallorca's coastal roads, battle your way through the Alps or race with thousands of other users worldwide. When connected to Kinomap, pedaling resistance adjusts to the route profile.

The Stil-Fit APP provides the perfect support to achieve long-term health goals and offers additional ways to experience the workout. Varied training programs, setting individual goals, tracking performance development and exporting training data are made possible by the Stil-Fit APP.

Apple Watch compatibility. Thanks to the STIL-FIT Apple Watch app, heart rate measurement can be done via the Apple Watch (no need for another heart rate monitor). The training data is synchronized live with Apple Health during the workout and stored in the Apple Watch

The Smart Package for the Stil-Fit PURE ergometers includes

- The STIL-FIT Ergometer PURE Tablet Mount - the advanced tablet mount is the perfect addition if you want to use the Kinomap, Zwift or Rouvy fitness apps. It allows you to use the console as a gear shift while the tablet is placed on the cockpit. (Tablet not included)
