

## Sissel cushion Soft Plus

Sleep softly and support gently - with the viscoelastic neck pillow. The Sissel neck pillow Soft Plus combines the advantages of the classic Sissel shape, proven a million times over, with the benefits of a viscoelastic foam filling. The exceptionally supple material also offers unique sleeping comfort to people with particularly sensitive necks. No matter how the head and shoulders twist and turn during the night, the spine is always supported in a pleasantly soft but stable manner. The pillow has a velour cover ecru of 80% cotton and 20% polyester, which is washable at 40 ° C.

**CHF 129.00**

### **The Swedish original**

All SISSEL neck pillows are manufactured with a lot of manual work in the casting process. They offer a good balance between softness and firmness, are allergy tested, anti-static and can be compressed, but still return to their original shape after a short time. The pillow core of all SISSEL neck pillows are hand washable, the covers are machine washable 40 degrees.

### **Neck and sleep pillow**

A natural and unstressed position of the neck and cervical spine is an important factor for restful sleep. Due to its special slope and shape, an orthopedic neck pillow can be a concrete support to keep the neck area in the anatomically correct position. MEDIDOR offers a wide range of products of the traditional Swedish brand SISSEL: pressure-relieving pillows made of viscoelastic special foam, actively supporting ones made of polyurethane foam but also traditional pillows or those with spelt chaff and millet husk filling.

- spine lies pleasantly soft and stably supported
