The Swedish original

All SISSEL neck pillows are manufactured with a lot of manual work in the casting process. They offer a good balance between softness and firmness, are allergy tested, anti-static and can be compressed, but still return to their original shape after a short time. The pillow core of all SISSEL neck pillows are hand washable, the covers are machine washable 40 degrees.

Neck and sleep pillow

A natural and unstressed position of the neck and cervical spine is an important factor for restful sleep. Due to its special slope and shape, an orthopedic neck pillow can be a concrete support to keep the neck area in the anatomically correct position. MEDIDOR offers a wide range of products of the traditional Swedish brand SISSEL: pressure-relieving pillows made of viscoelastic special foam, actively supporting ones made of polyurethane foam but also traditional pillows or those with spelt chaff and millet husk filling.
