Warranty: Home use: 2-year full warranty (excluding consumables), 5 years on motor; light institutional to commercial use: 1-year full warranty, 2 years on spare parts (excluding consumables), 5 years on motor

SPIRIT+ app is designed for users who like to plan their workouts, track progress and set fitness goals. With the SPIRIT+ app, users can store all their training data in one place and share training information with other fitness applications. Athletes can get instant insights during workouts and check real-time stats of their runs, walks and bike rides.

With so many different fitness apps and trackers available on the market, Spirit Fitness wants users to be able to share workout information with other third-party apps when needed. The ability to share data and connect with a like-minded fitness community is crucial for any athlete, regardless of the sport they are interested in. That's why SPIRIT+ app users can share and export their workout data with other fitness apps such as Apple Health, Google Fit, Fitbit and Map My Fitness (connecting to third-party apps may require a subscription, which is not included in the Spirit Fitness purchase).

Connect directly to third-party FTMS apps

FTMS ("Fitness Machine Service Protocol") is the latest Bluetooth standard for wireless control of cardio fitness equipment such as treadmills, exercise bikes, rowing machines and more. Spirit Fitness has integrated FTMS into its latest product range to enhance the workout experience for users of all ability levels. Connecting to third-party FTMS apps may require a subscription that is not included with your Spirit Fitness purchase.

Zwift is an app for cyclists, runners and triathletes that makes indoor training fun. It enables athletes to achieve their fitness goals in virtual worlds designed for a global community. Two training categories are available for Zwift users: Running and Cycling. Athletes can train on treadmills, connect their stationary exercise bike or a special accessory (smart tablet and app subscription not included).

Kinomap is the world's largest geolocalized video sharing platform with thousands of videos of the world's best routes. It is a subscription-based training app that allows users to access an entire library of videos submitted by other users from around the world. Kinomap pairs with your equipment and responds to the incline and resistance as seen in the video on your screen. The app offers a wide range of compatible equipment, including treadmills, cross trainers, exercise bikes, exercise bikes and rowing machines. With such a variety of cardio workout options, users of all fitness levels will find the workout they love (smart tablet and app subscription not included).
