

Spirit Fitness Commercial CE800+ LED Elliptical

The Spirit Fitness Commercial Elliptical CE800+ was designed specifically for commercial use, from the steel frame to the premium features of the console. The design focuses on convenience, comfort, reliability and aesthetics. Every step feels smooth and pleasant. The padded pedals are inclined inwards by 2°, guaranteeing an anatomically correct position and also reducing foot strain. Ergonomically designed handles ensure a comfortable grip during the entire workout. Two stationary handles are equipped with heart rate sensors that display an accurate heart rate at all times. Dual rails with shielded concave roller system provide superior stability and durability. The Spirit Fitness Commercial Elliptical CE800+ uses a generator to power the console. No electrical connection is required. The intuitive console with a large, easy-to-read display offers a variety of programs for users of all fitness levels. The Spirit Fitness Commercial Elliptical CE800+ has an integrated fan and a USB port to keep devices charged.

CHF 3'490.00

Equipment:

- Induction braking system
- Mains-independent generator drive
- flywheel mass approx. 14kg
- stride length 50.8cm
- treads inclined inwards by 2° - the latest sports science studies show that an inclination of the feet inwards by 2° promotes optimum muscle and ligament activity. These findings have been

incorporated into the development of the CE800+ LED and the inclination of the treads has also been implemented

- Tread distance (Q-factor): 5cm - The Q-factor describes the pedal distance. While the distance between the feet when walking is 120 - 150 mm, this is less when running and is 80 - 100 mm. A low Q-factor offers advantageous ergonomics for running training on the elliptical trainer
- Training computer with 18-character LED display Message center with 4 white LED windows and display of program profile, 2 display windows for resistance and RPM
- Console display of RPM, calories, elapsed time, remaining time, distance, resistance, METs, watts, heart rate
- 40 electronically adjustable resistance levels
- Manual training program
- Preset program profiles (Hill, Fat Burn, Cardio, HIIT, Interval)
- User program - programs can be created and saved by the user
- 2 heart rate-controlled programs (HR 65%, HR 85%) - heart rate-controlled training to improve performance
- Watt program
- Fitness test
- Bluetooth FTMS for APP connection and connection to Bluetooth-compatible chest strap
- Telemetric heart rate measurement (integrated heart rate receiver)
- USB port for charging function and software updates
- Hand pulse sensors on the fixed handlebars
- forward and backward motion sequence for different muscle strain
- Ergonomic handlebars for upper body training
- Large pedals for a secure footing
- padded and non-slip treads with profile
- movable pedals that support the natural rolling of the heels
- integrated swivel fan
- transport wheels
- double aluminum rail system
- water bottle holder
- tablet holder

Use: home to commercial use, payload: approx. 205kg

Device dimensions: L198.1 x W63.5 x H177.8cm, weight 110kg

Accessories: integrated receiver for chest strap transmitter, hand pulse sensors

Option: pulse transmitter strap TV mount

Warranty: home: 2-year full warranty (excluding consumables); light institutional to commercial use: 1-year full warranty, 2 years on spare parts (excluding consumables)

SPIRIT+ App is designed for users who like to plan their workouts, track progress and set fitness goals. With the SPIRIT+ app, users can store all their training data in one place and share training information with other fitness applications. Athletes can get instant insights during workouts and check real-time stats of their runs, walks and bike rides.

With so many different fitness apps and trackers available on the market, Spirit Fitness wants users to be able to share workout information with other third-party apps when needed. The ability to share data and connect with a like-minded fitness community is crucial for any athlete, regardless of the sport they are interested in. That's why SPIRIT+ app users can share and export their workout data with other fitness apps such as Apple Health, Google Fit, Fitbit and Map My Fitness (a subscription may be required to connect with third-party apps, which is not included in the Spirit Fitness purchase).

**Connect directly to third-party FTMS apps**

FTMS ("Fitness Machine Service Protocol") is the latest Bluetooth standard for wireless control of cardio fitness equipment such as treadmills, exercise bikes, rowing machines and more. Spirit Fitness has integrated FTMS into its latest product range to enhance the workout experience for users of all ability levels. Connecting to third-party FTMS apps may require a subscription that is not included with your Spirit Fitness purchase.

Zwift is an app for cyclists, runners and triathletes that makes indoor training fun. It enables athletes to achieve their fitness goals in virtual worlds designed for a global community. Two training categories are available for Zwift users: Running and Cycling. Athletes can train on treadmills, connect their stationary exercise bike or a special accessory (smart tablet and app subscription not included).

Kinomap is the world's largest geolocalized video sharing platform with thousands of videos of the world's best routes. It is a subscription-based training app that allows users to access an entire library of videos submitted by other users from around the world. Kinomap pairs with your equipment and responds to the incline and resistance as seen in the video on your screen. The app offers a wide range of compatible equipment, including treadmills, cross trainers, exercise bikes, exercise bikes and rowing machines. With such a variety of cardio workout options, users of all fitness levels will find the workout they love (smart tablet and app subscription not included).

Brake system: Induction brake system

Flywheel: 14 kg
