

Weider CFM Whey Protein 2kg can

CFM Whey Protein Isolate is the absolute gold standard among our protein powders. Whey protein isolate is the purest form of whey protein. The abbreviation CFM stands for "cross-flow-microfiltration", i.e. the filtration method used to obtain the highly pure whey protein. With its enormously high protein content of up to 90% (in the tasteless variant), the CFM Whey Protein contributes to the maintenance and building of muscle mass.

CHF 99.90

- enormously high protein content
- pure whey protein isolate
- over 25g BCAAs per 100g protein
- almost carbohydrate and fat free when prepared in water!
- perfect protein source in the context of a calorie-reduced diet
- enormously high protein content due to special filtration (CFM)
- super solubility

Consumption recommendation:

1 serving after training. Stir 30g powder (2 heaped tablespoons) into 300 ml low-fat milk (1.5%).

Packaging unit: 2kg can

Flavor: Vanilla, Chocolate, Strawberry, Cookies & Cream

Content: 2000g
