

Micro Luggage Junior Mint (ML0031)

The new Micro Luggage Junior is children's luggage and scooter in one and thus the perfect companion for the little ones. The children's suitcase with built-in kickboard can be driven, pulled and pushed. Whereby pushing offers a significant ergonomic advantage for the child by protecting the wrist and muscles. Thanks to the height-adjustable handlebar, the product grows with the child and accompanies him up to primary school age. The Micro Luggage Junior can be transformed from a trolley into a kickboard and vice versa in a flash by means of two simple handles. Its compact dimensions make it easy to take along on planes, trains or in the car. From now on, the little ones can transport their favorite toys themselves and parents can relax and enjoy the trip.

Multifunctionality: driving, pulling, pushing, height-adjustable steering bar

Steering by weight shift, Innovative folding mechanism, LED wheels
