

Circle Fitness SP8 Indoor Cycle

Circle Fitness' SP8 Indoor Cycle is an incredibly smooth running bike that is suitable for any commercial environment. Equipped with multiple vertically and horizontally adjustable components, the SP8 from Circle Fitness is suitable for users of all sizes. This makes it the perfect indoor cycle for any facility.

CHF 1'490.00

Adjustable resistance control

Easy-to-adjust resistance control makes changing resistance levels during workouts a breeze. There are 16 levels to choose from.

Aluminum Alloy Flywheel

High quality machined aluminum alloy flywheel with protective cover.

Multifunctional Handlebar

The multifunctional handlebar provides space for multiple hand grips and also offers storage space for water bottles and personal items.

Horizontal/vertical adjustable handlebar

The multifunctional handlebar can be adjusted up and down as well as forward and backward to accommodate users of different heights.

Horizontal/vertical adjustable saddle

The saddle can be adjusted up and down as well as forward and backward to accommodate users of different body sizes.

SPD Dual Pedals

These pedals offer both straps and toe clips for users who have a passion for cycling.

Transport wheels

Easy for users to move the Circle Fitness SP8 Indoor Cycle around the gym or home.

**Leveling Feet**

Users can easily adjust the height of the bike with strategically positioned leveling feet to ensure stable operation.

High Quality Saddle

The saddle has a comfortable shape and design, making it easier for users to ride the SP8.

*Zwift combines the fun of video games with the intensity of serious training. Explore the virtual worlds of Zwift in training or group rides and races with a global community that motivates you to get better every minute. Want to make your cardio workout more interactive and challenging, and combine it with the gamification factor? With selected models from the Cardio portfolio and the Zwift training app, this is now possible! Zwift combines the fun of video games with the intensity of serious training and helps you get faster. Connect in the virtual worlds of Zwift with a community that motivates you every minute. Choose from training plans, group rides, races and much more. Immerse yourself in the Zwift world and get fitter and stronger than ever! Your personal training plan - Looking for a long-term strategy for your next competition? Or just want some targeted coaching for your training? Zwift has sophisticated cycling and running plans that are customized and tailored to your fitness level. You can also create individual workouts in the app to achieve specific goals. Your personal best - virtual training with thousands of other athletes and feedback on the display provide the motivation boost you often need. In addition, since the performance data from the workout (such as rpm and watts) is transferred to the app, points can be collected and real competitions can be contested. Zwift is available on Google Play and in the App Store.
