

Jordan Urethane Fractional Change Plate Set (JF-FPLS)

Jordan's Urethane Fractional Change Plates Set with weight plates ranging from 0.5 to 2.5kg - these urethane weight plates are designed to push weightlifters to their limits, helping new weightlifters and pros alike add smaller weights to track progress more effectively. Ideal for beginners as well.

CHF 215.00

Indispensable add-on for those who want to beat their personal best or for personal trainers who help clients improve their lifting performance at a steady pace. Also ideal for beginners, especially women and children who are starting to exercise.
