

## Powerfood One Pure Mass 2500g can

Enjoy an active lifestyle - Your training goal is: more strength and muscle mass. PowerFood One Pure Mass is the perfect mix of protein and carbohydrates, creatine, glutamine and a vitamin complex that actively supports your muscle building.

**CHF 46.90**

Pure Mass by PowerFood One provides every active athlete with the nutrients needed to increase weight and help the body build muscle and maintain it. Thus, it can be said that Pure Mass by PowerFood One is a small guarantor of an attractive body and muscle building, provided that the training performances are correctly and consistently followed. PowerFood One Pure Mass was designed for athletes and sportswomen who want to gain weight specifically and thus create a foundation for an athletic body and the corresponding muscles.

The development of such a specific product requires the most modern know-how in the supplement industry. In PowerFood One Pure Mass, only the highest quality protein source (Whey Protein Isolate), glutamine, creatine monohydrate, a fully comprehensive vitamin complex and the highest quality carbohydrates from maltodextrin and dextrose have been added. In concrete terms, this means that with each intake you perfectly supply the body and stimulate muscle building.

The special combination with slow carbohydrates creates an interaction that makes PowerFood One Pure Mass a preparation that continuously releases energy. Pure Mass by PowerFood One is natural in taste and currently available in vanilla, strawberry and chocolate. You will simply love this creamy shake!

### **RECOMMENDATION FOR CONSUMPTION**

Mix 80g of powder with 250ml of water or milk once to three times a day and enjoy.

### **INGREDIENTS**
