

## Hexagon dumbbell set 1-10kg with vertical double rack

Rubberized hexagon dumbbell set from 1-10kg including vertical double stand in a modern design.

CHF 999.00

The hexagon dumbbells have long-lasting properties. They resist cracking and fading while protecting floors and equipment. The dumbbells are made of solid cast iron with a 6-sided anti-roll design and are coated with rubber. They are stylish and durable. The heads are securely fastened with a uniquely designed pin mechanism. No twisting or loosening.

A patent-pending secure dumbbell system combines one-piece cast iron heads with steel inserts that have been pinned, press-fitted and welded into place. The compact design of the weights makes them shorter and easier to handle than traditional dumbbells, while a durable rubber finish protects you and your workout area.

- 10 pairs of rubber-coated hexagon dumbbells from 1-10kg
- almost odorless
- handle length: 13.5 cm
